Profile

Dynamic and ambitious Civil Engineer with a passion for innovation and a strong drive to apply state-of-the-art engineering skills. Seeking a challenging role in a leading firm where I can leverage my educational background and practical experiences to contribute to cutting-edge projects and solutions.

Education

2016-2020

Bachelor of Science in Civil Engineering

Middle East University, Faculty of Engineering

Amman, Jordan

Relevant coursework, laboratories, and a dedicated faculty empowered me to excel in civil engineering principles and practices, preparing me for the demands of the modern job market.

2013-2016

Diploma in Geomatics Engineering

Al-Khwarizmi College

Amman, Jordan

This program equipped me with fundamental knowledge and hands-on experience in geomatics, enhancing my engineering skills and paving the way for further specialization.

2020-2021

Courses at Anwar Al-Olama' Academy

- Quantity Surveying and Reading Engineering Drawings
- Project Management using PRIMAVERA P6
- Structural Analysis and Design using PROKON

These courses added practical expertise to my skillset, enhancing my project management and structural design capabilities.

Experiences

July 2022 – Sep 2023

Civil Engineer

Nidal Nuseirat Contracting Company, Amman, Jordan

Commercial Complex Project

- Spearheading the construction of a commercial complex, overseeing all aspects of the project from planning to execution.
- Collaborating with multi-disciplinary teams including architects, engineers, and contractors to ensure project milestones are achieved.
- Managing resources and schedules to ensure timely project delivery while adhering to quality standards.
- Implementing efficient procurement processes and optimizing cost-effective solutions.
- Providing effective leadership and guidance to on-site personnel, fostering a cohesive and productive work environment.

April 2022 – May 2023

Civil Works Supervisor and Purchasing Officer

Al-Salt Hospital, Balq'a, Jordan

- Oversaw all civil works and construction projects, ensuring adherence to regulations and standards.
- Developed and implemented efficient policies for civil works and purchasing, optimizing cost-effectiveness.
- Maintained accurate records of budgets, expenditures, and activities, emphasizing transparency and accountability.
- Ensured compliance with safety regulations, fostering a secure working environment.
- Provided valuable guidance and training to staff, promoting adherence to policies.

April 2021 – March 2022

Civil Works Supervisor

Al-Rabeea Contracting Company, Amman, Jordan

- Managed procurement processes, negotiating with suppliers and ensuring timely material delivery.
- Collaborated with architects, engineers, and contractors to ensure project completion within budget and schedule.

October 2020 – March 2021

Maintenance Engineer

Ammon Contracting Establishment, Amman, Jordan

- Led the renovation of the King Hussein Cancer Center's fifth floor, enhancing patient care and treatment.

October 2016 – July 2020

Supervisor

Al-Hudaib Contracting Establishment, Amman, Jordan

- Managed diverse construction projects including Istiklal Mall and Luminoius College project, delivering on time and within budget.
- Expertly coordinated contractors, suppliers, and stakeholders for successful project outcome.

Skills

- Effective time management and organizational skills
- Strong teamwork and leadership abilities
- Proficient in AutoCAD, Primavera, Prokon, Microsoft Office
- Rapid learner with robust analytical and problem-solving capabilities
